DHRUV
DIAGNOSTICS

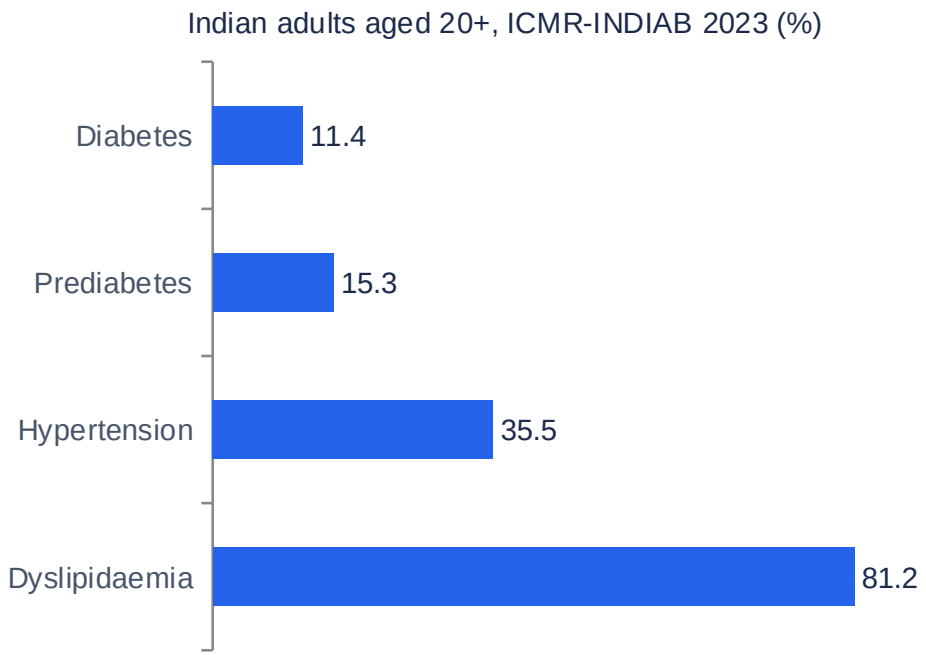

Employee health and wellness, from one campus

A proposal for companies in Nagpur

Dhruv Diagnostics
Face n Figure
Jeevan Jyoti Blood Bank

Most adults carry a risk they cannot feel

54%

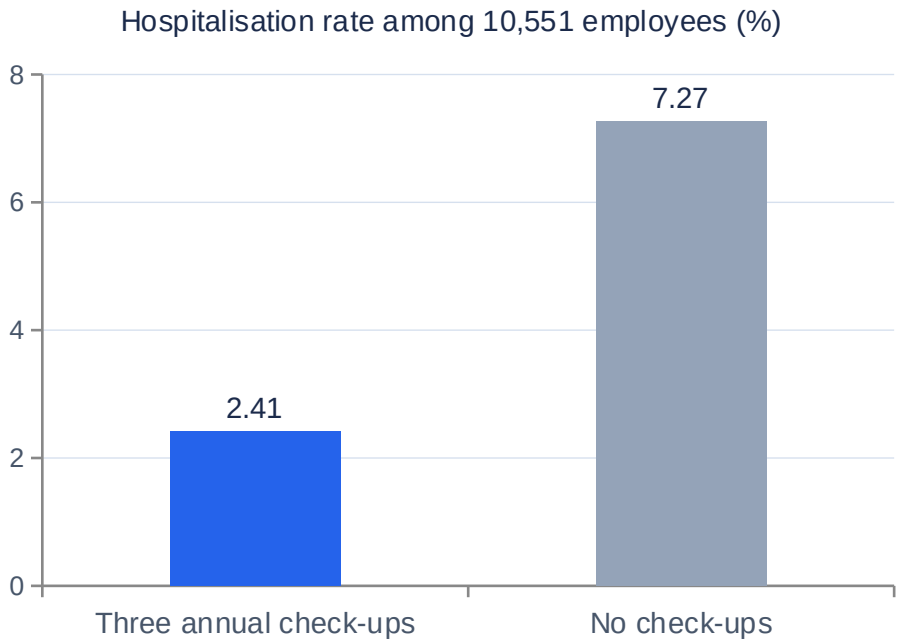

of women in Maharashtra are anaemic (NFHS-5)

1 test

finds each of these early. None of them hurts until it is advanced.

Sources: Anjana RM et al., Lancet Diabetes Endocrinol 2023 (ICMR-INDIAB, 113,043 adults); NFHS-5 Maharashtra fact sheet, 2019-21 (54.2% of women aged 15-49).

Regular check-ups go with fewer hospital stays

What the data shows

- Employees who completed three annual check-ups were hospitalised about a third as often as those who skipped them
- Skippers were a quarter of employees but made up 46% of inpatient claims
- Fewer than 30% of employees take part in company wellbeing programmes; on-site camps and same-campus visits close that gap

Sources: CII-MediBuddy Workplace Health Report (3rd edition), an association, not proof of cause; Plum, Health Report of Corporate India 2023.

What the new rules mean for employers

Labour codes

In force since 21 November 2025. In May 2026 the government launched free annual check-ups for workers aged 40+. The binding central rule now covers dock and construction work; Maharashtra's rules are in draft.

We can run 40+ check-ups for you now, ahead of any wider rule.

Data protection

The DPDP Rules were notified on 13 November 2025; most duties apply from 13 May 2027. Health results need consent and may be used only for the stated purpose.

Each employee gets their own report. HR gets anonymised group results only.

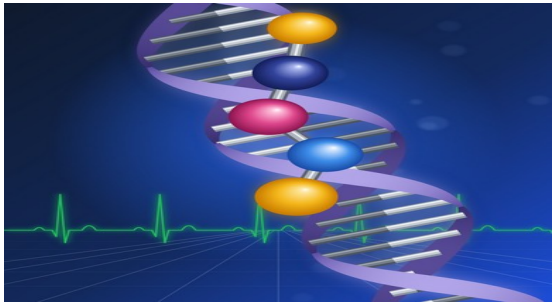

CSR

Programmes that benefit only your own employees are not CSR. Blood donation and health camps open to the community can count as preventive health care.

Run staff check-ups as a benefit, and blood camps as community CSR.

Not legal advice. Sources: Gazette notifications of 21 Nov 2025; OSH (Central) Rules 2026, G.S.R. 345(E); DPDP Rules 2025; Companies (CSR Policy) Rules 2014, rule 2(1)(d).

Three services, one Laxmi Nagar campus
